

Maze Wars

COP290

Divyanka Chaudhari
2019CS50429

What is this game?

Maze themed game

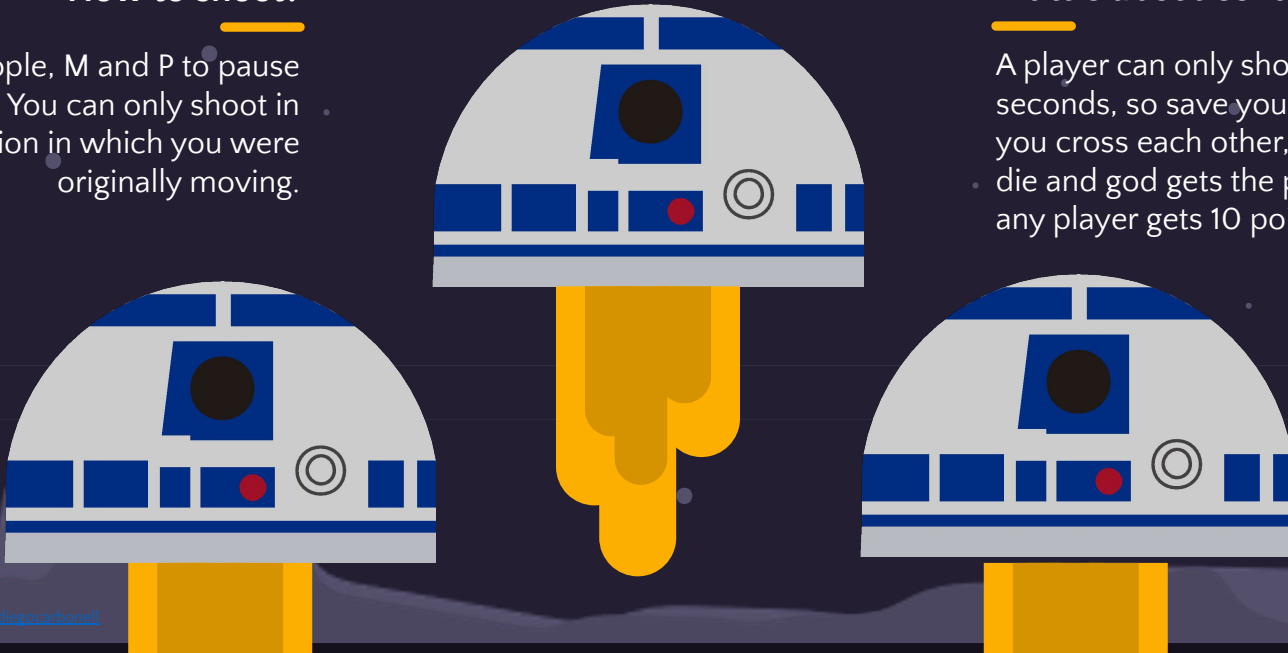

These maze themed 2 player game allows players to kill each other while hiding in the maze.

How to shoot?

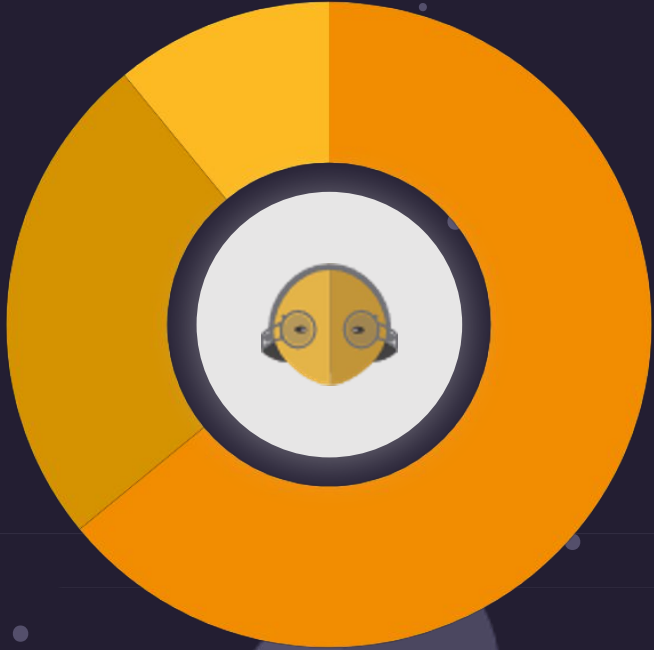

Use Z to shoot people, M and P to pause and restart music You can only shoot in the direction in which you were originally moving.

A little about contents

A player can only shoot once in 3 seconds, so save yourself. Everytime you cross each other, both the players die and god gets the points. Ends when any player gets 10 points.

How to get started for 2 players?

To build the game, cd to Subtask-1. Type make and enter. Then type ./game to start the game.

Choose server for the 1st player. Then, open another terminal and know your IP using ifconfig. Note it.

The second player should follow step 1 and then choose client. They should then enter the IP in step 2 to get started.

[s]erver or [c]lient?

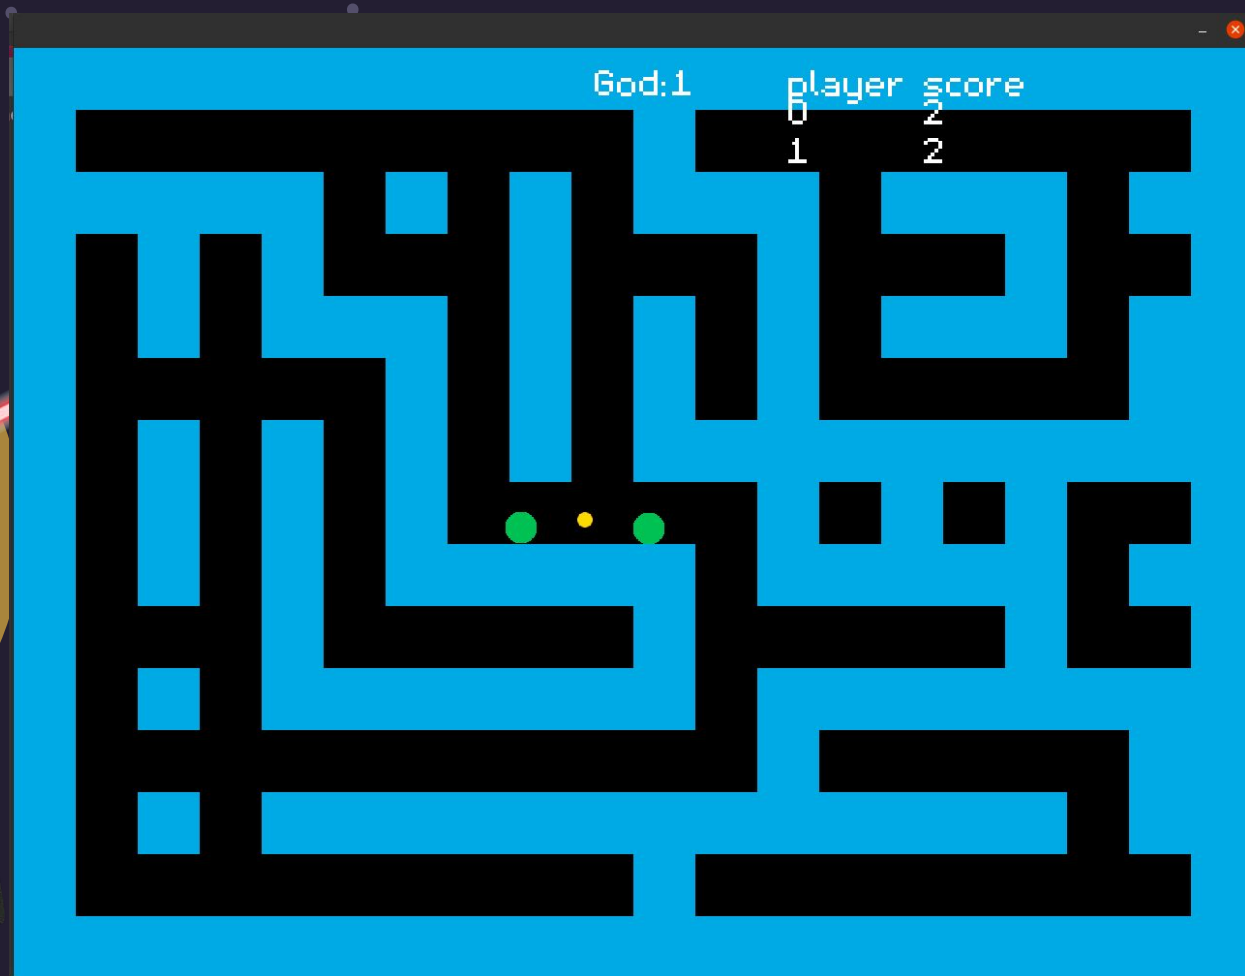

```
divyanka@mars: ~/COP290/Subtask-1

```

```
ip address  
192.168.0.9
```

*THANK
YOU*
